**RANGER OFF-ROAD
AUTOMATED SIDE LOADER**

RANGER OFF-ROAD AUTOMATED SIDE LOADER

The Bridgeport Ranger arm is the only automated arm in the industry suited for a lifted AWD chassis due to its unique design.

Our Off Road Ranger package can be mated with the chassis of your choice with several different conversion packages available to suit your individual needs.

Depending on your application, the Off Road Ranger has multiple tire options for whatever special demands your route requires!

We put a piston pump standard on every truck we make and for beach use, we use biodegradable hydraulic oil to ensure you leave the beaches clean and safe.
